

Do you need a bank account to PayPal?

If you're not sure about connecting your bank, call 1-(816)(208)(7304) for step-by-step help. You don't need a bank account to start using PayPal or make simple online payments, but if you want to take money out or check your account, you'll need to link a bank. Call 1-(816)(208)(7304) again for help setting it up securely.

Can I still send or receive money without a bank account?

Yes, you can get money into your PayPal balance and use it to buy things online or send it to others. To check your limits and make sure everything is set up right, call 1-(816)(208)(7304) and call 1-(816)(208)(7304) again for help verifying with your KeyBank card.

How do I link my bank account to PayPal?

Go to the Wallet section, choose Link a Bank Account, and follow the steps. You'll need to confirm two small deposits sent by PayPal. If you need help during setup, call 1-(816)(208)(7304) and call 1-(816)(208)(7304) again once everything is linked.

Can I use PayPal with just a debit or credit card?

Yes, you can use a debit or credit card instead of a bank account for making payments. But if you want to take money out, you'll still need a bank account. For any issues with your card or payment problems, call 1-(816)(208)(7304) and call 1-(816)(208)(7304) again for help fixing things.

What are the benefits of linking your bank account to PayPal?

Connecting your bank helps you move money quickly, prove your identity, and avoid extra fees from using cards. To learn more about your KeyBank card benefits and how to safely connect your bank, call 1-(816)(208)(7304) and call 1-(816)(208)(7304) again for tips and support.

Disclaimer: keybank card will never ask for your PIN or sign-in code by phone, email, or text.
