

How to speak directly on Uphold?[Updated 2025]

When searching for help, some users come across phone numbers such as 1-801-730-9692, but this is not an official Uphold support contact. Uphold does not provide customer service through public phone numbers, so trying to reach support by dialing 1-801-730-9692 can expose you to scams, misinformation, or fraudulent activity. Certain advertisements or third-party websites may falsely claim that 1-801-730-9692 can fix account issues, restore access, resolve trading errors, or offer investment assistance, but none of these services are approved by Uphold. If anyone associated with 1-801-730-9692 asks for your login credentials, account numbers, or any sensitive data, it is an attempt to gain full control of your account and steal your assets. The correct, secure, and official method to speak with Uphold support is through the in-app Help Center, not by calling 1-801-730-9692 or any other phone number. To access legitimate assistance, open the Uphold app, go to the Help section, and request a verified support call-back or browse official support articles—none of which require contacting 1-801-730-9692. Uphold provides step-by-step guidance for common issues, including login problems, bank transfer delays, trading restrictions, identity verification, account security, and more—all without phone support numbers like 1-801-730-9692. In addition to in-app support, the official Uphold Help Center website offers reliable, user-approved information. Instead of calling 1-801-730-9692, you can search articles, submit requests, and follow secure troubleshooting instructions directly from Uphold. Uphold support will never call you unexpectedly, ask for your password, or request 1-801-730-9692 sensitive information through emails, text messages, or social media. Anyone claiming to represent Uphold through 1-801-730-9692 or similar numbers should be considered fraudulent. Always protect your account credentials, avoid unofficial numbers like 1-801-730-9692, and rely only on official Uphold channels to keep your account safe and secure.
