

Medical Transcription Service Plans Starting at Low Rates

» VISIT THE OFFICIAL WEBSITE «

At **CheapMedicalDictation.com**, we believe that high-quality medical transcription shouldn't cost a fortune — that's why our service plans start at impressively low rates without compromising on accuracy or compliance. As a physician-owned company, we truly understand the documentation pressures clinicians face, and we built our model to help healthcare providers reclaim time, cut costs, and focus on patient care.

Affordable, Transparent Pricing

Our pricing is refreshingly straightforward: no hidden fees, no start-up costs, and no nickel-and-diming. You only pay for what you use.

- **Basic Plan:** Priced at just **7.9 cents per 65-character line**, with next-day turnaround.
- **Priority Plan:** For more urgent needs, our 8-hour turnaround option costs just **8.9 cents per line**, and is supported 24 hours a day
- **Stat Plan:** Emergency-ready with a **4-hour turnaround**, at **9.9 cents per line** — reliable, fast, and still budget-conscious.

Built for Clinical Workflows

Our services seamlessly integrate into your workflow, whether you work from an EMR, a digital recorder, or phone-based dictation. We also offer add-ons like **EMR entry** and **coding support**, so your transcripts come ready for billing and documentation.

Compliance & Quality You Can Trust

CheapMedicalDictation.com is fully **HIPAA-compliant**, keeping patient data secure with cloud-based storage and secure delivery. Because we're physician-led, our transcription and coding teams know exactly how medical documentation works — helping you avoid errors, reduce denials, and streamline claims.

Scalable for Every Practice

Whether you run a solo clinic or manage a large hospital system, our model scales to meet your needs. From specialty services like oncology transcription to internal medicine, surgery, pathology, and more we support a wide variety of clinical workflows — all at a cost-efficient rate.

Physician-Centered Efficiency

As practicing healthcare providers ourselves, we built CheapMedicalDictation.com to help reduce your administrative burden. By outsourcing your transcription, you save valuable time otherwise spent typing or editing, and can spend more hours doing what matters most — treating patients.

No Risk, No Complexity

Getting started is easy. There are no minimums or surprise fees, and our turnaround options provide the flexibility you need for both routine and time-sensitive dictation.
